

# *Prosperity Corner*

**Thanksgiving** “The expression of gratitude, esp. to God” (Wikipedia Dictionary).

Thanksgiving is a time to express gratitude and a precursor to having a prosperity consciousness. When you are truly grateful for what you have then the Universe perceives that you are ready for more and you are open to the flow of abundance.

According to Catherine Ponder, in ancient times people who understood the Spiritual Laws of Abundance gave financial offerings of thanksgiving both in anticipation of answered prayers and again in recognition of the abundance and blessings they had manifested. They practiced thanksgiving each and every day.

So this Thanksgiving, instead of waiting to be thankful for what you receive, give thanks in advance for your health. Give thanks in advance for financial prosperity. Give thanks in advance for harmonious relationships. Give thanks in advance for your ability to visualize your divine purpose.

God is the source of unlimited abundance...so practice your Gratitude Attitude as you embark on your celebration of Thanksgiving.

Thank you God!
